

TRANSPORT MANAGEMENT

Every Shipment = Full Visibility

**From booking to invoicing -
one connected workflow**

Shipment Management

- Plan and allocate loads that syncs with the driver's app
- Get live driver updates in the office
- Get ePODs before the truck leaves the yard to invoice fast.

Load Management

- Manage quotes, contracts and subcontractors
- Plan and consolidate loads
- Handle contract, ad hoc and specialised loads

Driver App

- Send trip details directly to drivers
- Capture ePODs, checklists, photos and fuel logs
- Receive live updates from the road

Smart Scheduling
